

STAR PROFESSIONAL DIGITAL WAXING IRON

The STAR Digital waxing iron is the most accurate iron in the world for ski tuning. With dual microprocessors and a precision cast base this is the best iron you can buy. Unlike other irons which are made in the former eastern block countries or in the Pacific Rim, this iron is made by craftsmen in Italy. For comments on this iron by ski tuner Zach Caldwell go to www.caldwellsport.com/

We are only able to obtain a limited number of these irons for 110 volts. If you want the best iron made call us as soon as possible. Our toll free number is 1-877-V2- Jenex (1-877- 825-3639)
